

Blas Glass Lo

Model#: 20PR221L
Height: 17.75
Width: 17
Depth: 17
Seat Height:
Materials:

Description

Is it possible to convert a stool into a low table? Now it is, thanks to architects/designers Dondoli and Pocci. Blas is a low stool in polyethylene that provides surprising versatility, when turned upside down it becomes a low table thanks to a methacrylate double-faced top. Blas can be used as a storage unit as well.

Features

- Suitable for outdoor use
